

FOOD SHOW TO BE LESSON IN COST CUTTING

Commissioner Gardiner to
Open Big Exhibit To-
morrow Night.

W. Gwynn Gardiner, District Commissioner, and Clarence Wilson, District food commissioner, will be speakers at the opening of the National Food Show and Industrial Exposition in Convention Hall tomorrow night.

The show, which will run until November 17, is the seventh annual affair to be held under the auspices of the Washington Retail Grocers' Association, of which John H. Brown is president. Perry P. Patrick, secretary of the Association, is general manager of the show.

The officers of the chamber of commerce, the Board of Trade, and other organizations have been invited to attend the opening night of the show and many of them have made known their intention of being present.

In addition to the varied exhibits of the show, which are meant to be instructive as well as interesting, the Food Administration and the Bureau of Fisheries have joined with the Retail Grocers' Association in the attempt to demonstrate some methods of combat the high cost of living. The Food Administration, which will play no small part in the show, has made Mrs. F. L. Ransome, president of the Housekeepers' Alliance, chairman of its exhibit. Miss Emma S. Jacobs, director of domestic science in the Washington public schools, is the vice chairman.

All of the domestic science teachers and many of the advanced students are taking an active part in the work and will be present during the various days of the show at the information booth dressed in Food Administration uniform to answer home economic questions. The classes in domestic science will prepare daily all the food which is to be a part of the exhibit. These foods will include the various "emergency breads," combining other grains with wheat cakes, muffins and pies in which the vegetable oils and beef fat will take the place of lard, just to demonstrate how good these substitutes really are.

The committee assisting Mrs. Ransome in addition to the members of the Housekeepers' Alliance, includes Mrs. Appleton P. Clark, Miss Ella A. Vinton, Mrs. George Ashley, Mrs. Emory S. Land and Mrs. L. Spencer Kesselstyn.

The Bureau of Fisheries, which has for some time been trying to get folks to appreciate the value of the water foods, will not only demonstrate their worth but will tell how to prepare them for immediate use.

RED CROSS DIRECTORS END TWO-DAY SESSION

Plans for Mobilizing Lay Women of the Nation Perfected.

A two-day conference of Red Cross division directors of the Washington division, which was held at the Washington Hotel, ended yesterday.

The purpose of the conference was to complete the division organization of the woman's bureau and to discuss the mobilization of the lay women of the country in support of Red Cross work. The principal service of the women has been in the making of surgical dressings, hospital garments, knitted articles, comfort kits and Christmas packages for the United States soldiers and sailors.

In addition, thousands of women have been aiding in all forms of civilian relief in this country, assisting at local canteens, providing comforts for sick and convalescent soldiers, and helping in other ways in the performance of chapter work.

53 JOIN COLORS FROM CAPITAL POSTOFFICE

Fifty-three men have answered the country's call from the Washington postoffice, according to an announcement by the department yesterday. Of this number seven were carriers and the others clerks.

Hebrew Congregation Joins Food Campaign

Food conservation will be practiced by the members of the Washington Hebrew Congregation beginning tomorrow, according to an announcement made last night.

Every family will fill out a weekly report card indicating its number of wasteful and needless days. A committee has been appointed to give instructions to the members. On the committee are: Max Fisher, R. H. B. von, Louis Jackson, Mrs. Charles Ward, Mrs. David Fisher, Mrs. Samuel Gans, Mrs. Aaron Jackson, Mrs. Mill West and Mrs. Harold Levy.

—Lace Trimmed Blouses —Full Frilled Blouses —Beaded Blouses
—Flat Frilled Blouses —Embroidered Blouses —In Flesh Color and White

Kann's—Second Floor.

None of the Youthful- ness of the New Dresses is Lost Even With the Advent of "Bustle Styles"

—This much-talked-of new style is simply a very charmingly draped model and its piquant style, if anything, lends added girlishness. Of course, there are many other models that are designed for the more mature woman, but she, too, will discover that these youthful styles are becoming and none the less suitable because of their "youthfulness."

—The materials are crepe meters, satins, charmeuse and serge. Some have the skirt pleated at hips, short-waist effect, new style pockets and elaborate braiding.

—We also have received a number of handsome velvet dresses, simply made, but very chic.

—New colors are wines, beet root, tan, brown, taupe, Chinese blue, navy and black.

—There are all sizes, including those for the miss of 16 to 19, up to extra sizes for the larger women.

Priced at
\$19.75 and \$25.00

Kann's—3d Floor.

For Better Style!

Are you inclined to be too stout, and is your flesh a burden? Do you long, not merely for more slender lines, but for a figure that is lighter and smaller? And—naturally—more symmetrical?

You may have your wish if you will wear a NEMO SELF-REDUCING CORSET.

This is how Nemo Self-Reducing Straps permanently reduce excess flesh: They create a gentle, continuous massage of the body against the firm wall of the corset. This gradually softens and dissolves fat, so that it is absorbed and carried away in the circulation. Every movement of the body is an aid in producing this massage-like action.

There are Nemo Self-Reducing Corsets for every type of full figure. Even though you are an extreme type, we can fit you, and alterations are seldom necessary.

NEMO SELF-REDUCING CORSETS—\$3.00, \$3.50, \$4.00, \$4.50, \$6.00

We also carry Nemo Wonderlift and Back-Resting Corsets, in models for all figures.

Two Melton-Rhodes Bookcase Offers

In Popular Finishes

—ALL Melton-Rhodes Bookcases have the patented doors that do not stick or catch, but open simply and smoothly without a hitch, no matter what the weather or temperature.

—All are dustproof cases and make work lighter where there are many books to take care of.

—Each stack consists of four sections, top and base; and sections vary in width, as 8 1/4, 10 1/4, 11 1/4 and 12 1/4-inch widths.

—Such cases add to the beauty of a home; and the booklover will welcome such an improvement over the old type of bookcase.

—Melton-Rhodes Cases, made of quartered oak, in golden oak or Jacobean finish. Choice, set... **\$20.00**

—Melton-Rhodes Cases, made of light golden oak or fumed oak finishes. Choice, set... **\$16.00**

Other Outfits, \$27.50 and \$35.00

—PROFESSIONAL MEN AND OTHERS: We have ready a large quantity of units in light oak (any finish), and can show you how best to arrange these units in your offices. Ask for information.
